\\ EQUIPMENT BEING HIRED

Lucky Claw – Machine Description
The Lucky Claw is a full-size, freestanding claw machine with a refined, vintage-arcade aesthetic. The cabinet is finished in deep espresso/near-black with dark wood panelling accents, giving it a premium, nostalgic feel that stands apart from typical bright plastic arcade machines.
Signage & Branding
The machine is crowned with an illuminated oval marquee displaying "Lucky Claw" in a warm cream/ivory backlight, with the logotype rendered in a bold red cursive script – evoking classic fairground and diner typography.
Structure & Form
The cabinet is tall and rectangular with gently rounded glass corners, mounted on four castor wheels for mobility. Large glass panels on all visible sides create full transparency into the prize chamber, inviting curiosity and engagement.
Interior
The interior is warmly lit in amber/gold tones, creating an inviting glow. The prize chamber is filled with clear capsule balls – each containing small prizes visible through the casing – giving a sense of abundance and anticipation. Two mechanical claw arms are suspended from a polished steel gantry system overhead.
Controls
A minimalist control panel sits at mid-height on the front face, featuring a single chrome joystick and a small illuminated blue touchscreen or button – keeping interaction clean and intuitive.

BRAND GUIDELINES

\\ NAVIGATION

The navigation consists of five links only: Home (linked onto the logo), The Claw, About, Contact, and Instagram. No additional pages or links should be added to the main navigation. The Instagram link opens in a new tab and directs to the official Instagram profile.

\\ CLIENT ENQUIRY FORM

The website features a guided enquiry form designed to collect everything needed to prepare a tailored proposal — without overwhelming the client. The process begins on the homepage where the client selects their event type (Weddings, Private Events, or Brand Activations), which routes them to a personalised form URL. A thin progress bar runs across the top showing their position, with an estimated time of 60 seconds. Steps cover event essentials, quick personalisation chips, style and vibe preferences, support requirements, and finally contact details with an investment range. On submission, the client is shown a confirmation and can expect a response within 24–48 hours.

\\ SOCIAL PROOF

As Fortune Haus is a newly established brand, the website will not feature client testimonials, reviews, customer feedback, or a list of past clients and collaborators at this stage. These sections should not be added as placeholders or left empty — their absence is intentional. The focus is on the brand's offering, aesthetic, and enquiry experience rather than a portfolio of past work. Social proof elements can be revisited once the brand has an established client history.
